

Seminar Stable Homotopy Theory

1.10.-2.10.2020 and 8.10.2020 (Thursday and Friday)

Bratislava or Brno

The aim of the seminar is to understand some theory and examples about spectra.

We plan to follow [Hat02], [Swi02], [Ada74], maybe [Ada78] and something newer like [Sch07] or [BR20] that I am not an expert in.
